Certification

This course satisfies the training requirements for Hazardous Waste Operations and Emergency Response (HAZWOPER) instructors (29 CFR 1910.120(e)(5)).

Certified Environmental Trainer Examination

Richard Chinn Environmental Training can help you coordinate the National Environmental Safety and Health Training Association's Certified Environmental Trainer examinations after you complete the course. Students must apply directly to the National Environmental Safety and Health Training Association (602.956.6099, www.neshta.org) to take the CET examination but Richard Chinn Environmental Training can help you find an approved proctor for the tests.

Course Location: Tampa, Florida. Please see our web page for specific site location.

Course Dates: April 12 - 15, 2010

Course Fee: \$1050

Refund Policy: Full refund if canceled in writing at least 10 business days before the beginning of course; 70% refund if canceled in writing at least 3 business days before the beginning of course. A full credit is available for use at a different course site if canceled between 10 and 3 business days before the beginning of the course. On very rare occasions, Richard Chinn Environmental Training, Inc. may have to cancel a seminar and refund all fees.

About the Instructor

Richard Chinn, MS, CET, developed the curriculum and provides the training. He is a Certified Environmental Trainer in Occupational Safety and Health from the National Environmental Safety and Health Training Association (NESHTA).

Mr. Chinn has provided train-the-trainer training to supervisors and instructors of Hazardous Waste Operations and Emergency Response and has trained hundreds of Hazardous Waste Operations and Emergency Response workers.

Mr. Chinn is a former member of the Board of Directors of NESHTA and has been a CET and member of NESHTA since 1994.

About the CET

To be eligible to sit for the National Environmental, Safety, and Health Training Association's Certified Environmental Trainer® (CET®) designation, one must have relevant experience (some of which may be waived by appropriate education), proof of delivery of 270 contact hours of training, and three favorable professional references.

Contact the National Environmental, Safety, and Health Training Association directly for specific criteria, fees, membership, etc. (neta@ehs-training.org, www.neshta.org or 602.956.6099).

Richard Chinn Environmental Training, Inc. Courses

Wetland Delineation / Waters of the US / Interim Regional Supplement Wetland Classroom and Field Training

This course covers how to identify and delineate wetlands using the 1987 Wetland Delineation manual (and subsequent clarification memoranda), Waters of the United States based on the SWANCC and Rapanos Supreme Court decisions, and the Interim Regional Supplement methodologies. This course also provides 2.6 credit hours of the 12 necessary to become a Professional Wetland Scientist, satisfies the training requirements of most state Departments of Transportation, and satisfies the Corps training requirements to become a Certified Wetland Delineator *upon implementation*.

Florida Statewide Wetland Delineation Training

This 2 day course covers the wetland delineation method (62-340 FAC) used by the State of Florida, Water Management Districts and Counties and Cities of Florida. This is independent of the Corps method.

HAZWOPER 40 Hour Initial and 8 Hour Annual Refresher Training

We offer the 40 hour initial and 8 Hour refresher at our facility and can offer it at your facility.

On-Line HAZWOPER Annual Refresher

This course satisfies OSHA's requirements for annual refresher training for Hazardous Waste Operations & Emergency Response workers (29 CFR 1910.120) by OLTRAIN®, www.oltrain.com.

Call us or visit our web page for our current, posted training class schedule. On-site training is available for groups as few as 10 persons.

Hazardous Waste Operations and Emergency Response Train-the-Trainer Training

Train to be a HAZWOPER instructor and/or Certified Environmental Trainer® (CET®)

This comprehensive, 5 day, 40 hour course provides training in:

- C Preparation for instruction
- C The development of instructional skills
- C Instructor-reviewed and peer-reviewed presentations

This course satisfies OSHA's requirements to become a hazardous waste operations and emergency response instructor and prepares eligible persons for the National Environmental, Safety, and Health Training Association's Certified Environmental Trainer examinations in Occupational Safety and Health.
